How To Save Money Buying Great Value Presents

With Christmas approaching how can we save money buying great value presents? Follow the rules you find here and you'll never overspend again!

Everyone wants to know the secret of how to save money buying great value presents. The simple truth is there is no secret. We already know how to do it.

Yes, the answer to this question is so obvious, yet no one pays attention to it. Human nature being what it is, most of us do the opposite of what we should be doing.

Here are two simple rules that help you not just in the run up to Christmas but anytime :

Rule #1:
Buy great value, don't buy cheap.

It's obvious, **cheap is cheap**. It does not feel nice and, most importantly, cheap does not last. Buying cheap is not saving money but throwing it out of the window.

Rule #2:
Buy top quality brands at deep discount.

Quality lasts and feels great, too. Bought at rock bottom prices, quality products will earn their keep and turn out cheap in the long run.

When you follow these 2 rules you cannot go wrong. You will save money and buy great value presents.

Let me give you two examples:

My first 'iPod' was really cheap. It was a cheap imitation bought on eBay from a Hong Kong trader. It lasted almost six months. It never worked as

promised. When it suddenly died neither was the warranty honoured nor did I get a refund.

Adding on the cost of my new MP3 player, I could have bought my first one directly from the manufacturer of the leading brand and still would have saved money. Cheap turned out to be very expensive.

This rule does not only apply to electronic goods. Have you ever bought a really cheap shirt? How many washes did it survive before it lost its colour? Two? Three?

By contrast, when I bought shirts from leading retailers at half price sales, the superior quality paid for itself. Ten years and even later, these shirts still looked like new. Expensive had turned into great value and, in the long run, was really cheap.

For good measure, here is a bonus rule:

Rule #3:
Buy 1 present for the whole family.

Don't spend your hard earned money on lots of little things that make the costs mount up at lightning speed. Buy one quality thing at deep discount that everyone can enjoy together.

Below is a list of resources for you.

I know this list isn't complete yet. But rather than wait until I have checked out all the sites that I have earmarked, I decided to publish now and update as soon as I have completed my task. Check back often as I'll also keep adding to the list as and when I come across more great sites.

[Just click here for updates.](#)

[1] Do You Enjoy Taking Great Pictures?

Snap shots are nice but why not take great pictures instead? After having given up my SLR with several lenses for low cost auto-focus pocket cameras, I'm moving back. Rather than go for the cheap digital camera with its inherent limitations in spite of the myriad of features it offers, go for the top. Check out [Best Canon Digital Cameras](#).

You'll find a really great selection at great prices. What's more, the selection at this site is not based on lab tests alone but on market evaluations of at least 14 different criteria made by thousands of buyers.

Perhaps you want to shoot for the top with full frame metering and all that a top of the range Nikon Digital SLR offers at pro level? Seeing is believing. Check out the [Nikon D700 price](#) at this site.

Tip: Don't just keep the camera for yourself. Make it a family event. Create family movies or family slideshows together.

[2] Do You Play?

Have fun playing games together or competing in your living room sports arena. The event of the year has just hit the shops.

You can get the hottest games console of the year from [Purchase New Xbox 360](#). The new Xbox 360 is ready for [Kinect](#), the brand new console that will revolutionise family or party games.

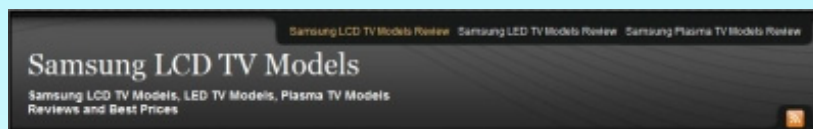

With [Kinect](#), there is no controller, there literally are no strings attached. You play with your body and your voice. You ARE the controller. And

Kinect is ready for up to 4 players right out of the box. All you need to do is get off the couch and have fun.

[3] Want A New TV But Unsure What To Get?

A new TV set is an obvious choice. But how to choose and what to get? The market place is simply bewildering.

Check out [Samsung LCD TV Models](#) where you find a great selection of not only LCD TV Models but also [LED TV models](#) and [Plasma TV models](#) plus reviews and best prices. It is a site where they took the time to check out what the market said not just what the manufacturers want to sell.

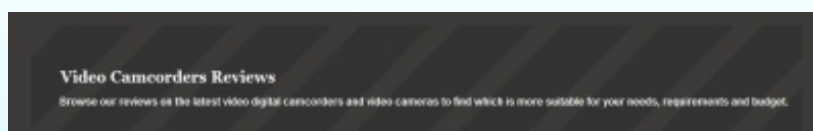

[4] Video Cameras For Everyone

Video Camcorders today are amazing value and offer great quality image and sound for very little outlay.

Whether Flip, Kodak or Vado, they are simple **point and shoot fun** for outdoors and indoors with great results. You see your videos instantly on your TV set or computer. Easily send them to your friends and family or share them on Youtube without any technical knowledge.

Video camcorders are fun for the entire family and provide fantastic memories that used to be reserved for the rich and technically savvy. Now, **everyone** can grab one of the [video camcorders](#) and put Hollywood to shame.

Here are a couple of great ideas **especially for kids**, your own kids and other kids including the ones that hide inside every grown-up.

[5] Barbie Doll Houses

These **Barbie Doll Houses** are suitable for girls from 3 to 300. Just check out the reviews!

Did you see how many mothers complained about **not** having had one of these when they grew up? You bet they are secretly playing with them when the family is asleep. And don't think you'll be able to keep the boys away from them.

Barbie Dollhouses are etemal bestsellers. And at this site, they have scoured the market for best prices. Check them out.

[6] Harry Potter Legos

What could be more attractive than two of the biggest names in one: Harry Potter and Lego? Especially now, with the release of the penultimate Harry Potter film in the second half of November, there will be a run on **Harry Potter Legos**.

These two are **hot favorites** for both, boys and girls of **all ages**.

And Lego being Lego, the versatility of the building blocks will keep the whole family increasingly busy, particularly when sets accumulate over the years.

Go on, bewitch them.

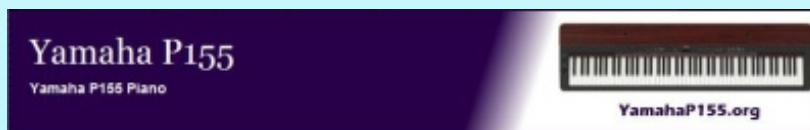

[7] Do You Play The Piano?

No room for a grand? Price tag too steep?

Here is **the** option to **play or learn** to play the piano **without the price tag** and the maintenance required by a "real" grand or upright piano.

The **Yamaha P155** will give you the weighted keys and sound of a grand and will fit into the smallest of living rooms. Your children will be able to learn to play with the "touch and feel" of a real piano wherever you live.

Health and Fitness devices, applications and systems, apart from being 'good' for you and potentially saving you a lot of money, for instance in gym membership for you and your family, can be used individually as well as in a group. **Here is our selection:**

[8] Your Multi Gym At Home

Multi Gym Equipment for your home comes in all shapes, sizes and price ranges. They all have one thing in common: your home gym will save you time and money.

How can it do both? It's simple, your home multi gym is free when *you* want it, and you certainly *don't* pay a monthly subscription for yourself or your family.

Home **Multi Gym Equipment** can be compact and folded away under the bed, take up a corner of your living room or require a separate room. It's up to you what it is to be.

You'll find a large selection of equipment, a buying guide, FAQs, and information on which exercises to avoid and how to work out, at **Multi Gym Equipment**.

[9] Cycling At Home

While running may not be for everyone, an **indoor cycling bike** combines the best of all worlds: protected from the elements, you choose your level of workout – gentle or cardio - any time of day or night.

You can listen to music, watch a movie or compete in the Tour de France without the risk of falling and injuring yourself.
